

Environmental Policy

Robinsons Group, hereinafter referred to as Robinsons is committed to leading the industry in minimising the impact of its activities and services on the environment and strives to adhere to continual environmental improvement and the prevention of pollution.

Robinsons aims to:

- Comply with all relevant legislation, regulations, and other requirements to meet customer and community needs.
- Aim to minimise the use of all materials, supplies and energy in its processes and other facilities. It also aims to reduce the waste to a minimum and to ensure that materials are, wherever possible, reused or recycled.
- Minimise the risk of environmental accidents and ensure that an emergency response capability to deal with accidental pollution is in place at all times.
- Continually improve processes and procedures, where it is technically and economically feasible to do so, with a view to improving environmental performance.
- Encourage the promotion of environmental awareness amongst all employees and suppliers of goods and services. Improve our services by applying the best possible technology to protect the environment, where it is economically feasible to do so.
- This policy is communicated to all employees and is available to the public and any other interested parties. It is reviewed, documented, implemented, and maintained by the Group's SHEQ Manager/Compliance Officer.
- Robinsons pledges to implement and operate the ISO 14001 Environmental Management System to further enhance environmental performance.
